OFF SET QUAD	80mm	130mm	175mm	50mm	90mm	55mm/65mm*

* Height at waste

RIM WIDTH

Merlin - with upstand 54mm

Merlin - without upstand 60mm

LEG ADJUSTMENTS

The legs and panel set allow easy access to the waste and plumbing, when necessary. Legs are adjustable up to 35mm to enable you to make the tray level, particularly where the floor is uneven. The legs will adjust to a maximum height of approximately 115mm. Major height adjustment will mean the side panels will not fit and an alternative cover will be required, e.g. a tiled frontage or other decorative panel.
